

Request for Proposal for DHIS2 Tracker Restoration

Ciheb Zambia | Consultancy | Lusaka, Zambia

About Ciheb Zambia

Ciheb Zambia is a non-profit, local Zambian organization supporting the Ministry of Health to scale up comprehensive HIV prevention and testing services, and to find the best solutions to life-threatening situations among communities in Zambia, including addressing global health security issues.

Invitation

Ciheb Zambia invites qualified individual consultants and firms to submit technical and financial proposals for the restoration of its DHIS2 Tracker platform. This is a competitive, open solicitation; all responsive and eligible proposals received by the closing date will be considered.

Assignment Summary

The consultant will diagnose and restore Ciheb Zambia's DHIS2 Tracker platform - fixing broken program configuration, auditing and correcting program rules, cleaning up data integrity issues such as duplicates and orphaned records, and leaving the system fully documented and handed over.

The full Scope of Work, deliverables, proposal requirements, and evaluation approach are set out in the attached Request for Proposal document, accessible via Google Drive: [DHIS2 Tracker Restoration Consultancy - RFP Document](#).

Eligibility

Individual consultants or firms with demonstrated experience in DHIS2 Tracker configuration, program rules development, and database integrity/data quality remediation.

How to Apply

- Submit a technical proposal (approach, CV/company profile, at least two references).
- Submit a financial proposal (all-inclusive consultancy fee).

Email both to bids@cihebzambia.org, with the subject line: "DHIS2 Tracker Restoration Consultancy - Proposal".

Note: this listing did not specify a fixed closing date; applicants should contact Ciheb Zambia directly to confirm the submission deadline.
